*NOTE: Factory installed engines include dual electronic binnacle control with combined power trim-tilt and Yamaha Command Link Plus Rigging System. Command Link Plus features 5" full color, high resolution LCD display which indicates critical systems information, including: gear selected, engine RPM, boat speed, engine trim level, available fuel in gallons, fuel level, fuel flow, fuel economy and up to three vital engine functions that are user selectable (i.e. oil pressure, water pressure and battery voltage) in an easy to read bar graph. Factory installed Yamaha engines come standard with stainless steel SDS props and Yamaha 10 micron fuel/water separators.
