Ocean House Marina Reinforces Regulator/Yamaha Agreement with Key New Hire

(Charlestown, RI) The Ocean State's premier marine dealership, Ocean House Marina in Charlestown, RI, recently entered an agreement with Regulator Boats, making Ocean House the exclusive dealer for Regulator, and establishing a territory that includes RI and eastern Connecticut. In line with the company's new alliance with world-renowned Regulator Marine, Ocean House announced today the hire of a widely respected figure in the local sportfishing and boating community.

Ross Nasin, of Mystic, CT, will join a seasoned sales and service staff at the Marina, bringing with him considerable time at the helms of many of the world's top fishboats, as well as numerous accolades in the sportfishing arena. With intimate knowledge of Block Island and eastern Long Island Sounds, 30 years of captaining credentials, and strong, long-standing relationships with key players in the local marine trades, Nasin will mesh seamlessly with Ocean House's respected crew and discerning clientele.

Arrangements with Regulator Marine, the top name in Carolina-built fishboats, and Yamaha Outboards, the builder's exclusive powerplant with a well-deserved reputation for flawless performance, reinforce Ocean House's dominant position in the Rhode Island and eastern Connecticut sportfishing community.

"Ross knows boats inside and out, knows our local waters from decades of first-hand experience," said Rob Lyons, President and General Manager at Ocean House. "We're glad to merge his knowledge and reputation with our own. It's a natural alliance, and a great opportunity to make great things happen with Regulator and Yamaha."

In addition to being Rhode Island and eastern Connecticut's exclusive Regulator and Yamaha dealership, Ocean House also partners with Hydra-Sports, Hurricane Boats, Maritime Boats, Sanpan Pontoon Boats, Aqua Patio Pontoon Boats, Sweetwater Pontoon Boats and Polar Kraft.
